Summary

A passionate software engineer with over 2 years experience UI development and Angular. Seeking a challenging and creative environment using the latest technologies that offers good career growth while being flexible.

Trainings and Experience

Software engineer | May 2022 – present | Securly

As a front end developer my responsibilities include:

- Developing user friendly web pages for the company website using Html, css, javascript, npm, gulp as build tool, bootstrap, jquery etc while closely working with the marketing and analytics team to make sure the website is efficient, optimized and SEO friendly.
- Hands-on experience with Angular. Worked on webapp using Angular which involves rest APIs, authentication, state management with NgRx, pagination, angular mat etc.

Graduate Trainee | Jun 2020 – April 2022 | AstraZeneca

Worked as HTML email developer building emails from psd and xd designs while making sure the email is mobile responsive and compatible with major email clients. Also built various surveys, webapps using HTML, CSS, Javascript/Jquery on Adobe campaign.

System Engineer Trainee | Jan 2020 – Mar 2020 | Infosys

Completed the winter internship program learning JAVA, SQL and Rest APIs using Mulesoft.
